

I believe that K-LOVE serves a vital function to myself and the residents of my community. K-LOVE provides a safe listening environment for my entire family. I never have to worry about what my kids will hear. It is a family and community oriented station. If K-LOVE were to be displaced by LPFM, there would be a great void in the listening arena. There would be no station that would appeal to listeners from 2 to 90. K-LOVE provides important information on local events that would otherwise be difficult to obtain. The fact that K-LOVE is listener supported is evidence that it provides an important community function that would be greatly missed. I urge you to reconsider giving priority to LPFM stations. I for one would be lost without K-LOVE. It's one of the few places where we, as Americans, can obtain inspirational and spiritual rejuvenation in an increasingly declining moral environment. Thank you for your consideration.
